

RAU GROUP OF COMPANIES

Interior Design Services

We Go Above And Beyond Of Every Job, Period.

Design Supervision

To make sure that our clients get the best service they deserve, we do not only select high quality FF&E, but also we acquire these items from trusted supplier's equivalent to the best cost in the least possible time.

In order to make sure that the dream we design will be constructed exactly as we planned, we supervise construction process stage by stage till delivery to the client.

Process

Though each project is unique, we have a established a 6 Step process that ensures your project is completed on time

Space planning

Either refurbishment or newly built, we work on re-organising the layout in a neat and clear way. Providing the best opportunity for efficient spatial experience is the goal of this stage.

Concept Design

Non-orthodox solutions and new ideas are the main outcomes of this stage. Each project have different circumstances, thus we provide optimum solutions in a creative manner.

Our Services

Interior Architecture

Science of industriosity is our profession. We design and re-design interiors following the spatial arts of environmental design in a responsive and active manner, respecting the building skeleton while anticipating the human interction within its boundaries.

FF&E

Science of industriosity is our profession. We design and re-design interiors following the spatial arts of environmental design in a responsive and active manner, respecting the building skeleton while anticipating the human interction within its boundaries

Visualization & Animation

As an interior design, we are ahead of our competitors in terms of selecting real-life products. Since early stages of design, high quality items are carefully selected according to project budget & location. We are pioneers in band selection for a wide range of interior styles.

Interior Decoration

Given our distinctive interior designs, our computer graphics team is equally clever. Having the designs presented in a reality-simulations makes the design as real as it would be.

Procurement

We design interior spaces to turn them into an "effective setting for the range of human activities" that are to take place. style is something we develop in a nonlinear manner, hence we do not repeat ourselves and bring about new ideas in every project.

Design Development

Several layers of design are usually required to turn the initial concept into a mature design. Material engineering, electro mechanical and other services are coordinated at this stage to deliver a well- studied project.

Documentation | FFE & Specs

This stage is when the full packages of Constuction Documents and detailed specification sheets are prepared according to the design and each FF&E item is well documented with its full reference.

Procurement & Tender

Preparing request for tender and procurement sets the parameters and qualities required to execute our design as perfect as possible. This is done according to project's budget, location and desired schedule.

Supervision

On site supervision and quality inspection is an important determinant of the dream coming true. Making sure the site is on track reduces any lost costs of back and forth construction works, and ensures the supreme quality of work delivered to our clients.
